

good harbor
VINEYARDS

We use fresh pressed apple juice from apples grown in Southwestern Michigan for our hard ciders. Using Michigan grown fruit and high quality ingredients helps create the clean, fresh, and natural flavored ciders that consumers desire. The addition of Michigan peach juice provides an authentic fresh flavor that can only be produced by fresh fruit. Good Harbor's Peach Cider remains in stainless steel tanks from start to finish to capture and preserve the fresh aromatics desired by cider connoisseurs. It is finished in a medium sweet style.

peach cider

NOSE & PALATE

There is no mistaking the fresh peach aroma on this cider. The peach flavors follow through on the palate with a slightly off-dry finish. The peach cider has a medium finish with mouth-watering acidity leaving you wanting another sip every time.
